### GUIDED ... STARTS WITH A LIFE-DESTINY DREAM

A PROPHETIC TRUE-STORY ABOUT THE TIMES WE ARE NOW LIVING IN

The first time Linda dared to tell her **true story** was when she wrote and published her True Story, GUIDED ... a riveting testament to **survival** in the face of insurmountable odds by overcoming **fear**. This empowered Linda to achieve far more than even imagined, knowing she was being guided.

### SUGGESTED INTRODUCTION:

**Linda Deir** ("deer") arrived in this world unwanted, unloved, and abused. The first time she met her Spirit Guides and Angels happened at 20 months old when her mother beat her unconscious and she had an NDE. Upon awakening she asked out loud for someone to help her and "they" physically appeared. An **NDE** in reverse, "they" followed her back here, telepathically communicating with her about her life, establishing a life-long bond with them. Her mother and family told her she had no value, causing her to focus inward following her **guidance** to make sense of the **bullying**, what the messages her **dreams** revealed, and the wisdom that came through her **journal writings**. Surviving childhood, she got out at age 16, and by age 19 became an unstoppable serial **entrepreneur** without any formal education. How did she do it? ... she was **Guided**, which is the title of her Int'l Award-Winning **true story**. Ever since its publication, readers wanting to learn what **Guided** teaches, came the companion journal to **Guided** entitled, My Guided Journey, of self-discovery and personal transformation©. Next came the Guided Journey, a self-directed **counseling service** of **Spiritual Awakenings** and **Unexpected Psychology**, spiritual solutions for **mental wellness** - free to everyone on her website! A co-created work with her Guides ... eight years in the making. The **Guided Journey** offers parents, coaches, counselors, teachers, professors, friends, and families self-help strategies found nowhere else. The **Guided Journey** has over 60,000 social shares!

### Review of Guided

☺☺  
*Linda's perspective on the current direction of the world, the planet, and our dumbing-down and increasing ignorance of our society - a situation she verbalizes well and follows that with a cautionary plea to tune into our guides to get us through this increasingly mad merry-go-round that is life.* ☺☺
